Profile

Dedicated and motivated Computer Engineering undergraduate student with a passion for innovative technologies seeking internship opportunities to apply classroom knowledge in real-world scenarios and contribute to cutting-edge projects in the field.

Education

Secondary School Certificate

VPM's B. R. Tol English High School

Higher Secondary School Certificate

Wamanrao Muranjan Madhyamik Vidyalaya & Junior College of Science & Commerce

2022/11 – present

Bachelor of Engineering

Vivekanand Education Society's Institute of Technology

Skills

python

HTML/CSS

JavaScript

SQL

Machine Learning

C

Projects

2023/07 – 2024/02

Bcare

Fetal Abnormiltiy Detection

Using machine learning, this fetal abnormality detection project analyzes ultrasound images to classify fetuses as normal or abnormal. After training a model with labeled ultrasound data, a website is created with HTML, CSS, and JavaScript to showcase the results. Users can upload images, and the website displays whether the fetus is normal or abnormal based on the model's classification.

2023/11 – 2024/01

Daily Wage Manager

The Daily Wage Manager, a Python GUI app, simplifies daily wage worker record management. Integrated with SQL and Pandas, it efficiently stores, retrieves, and analyzes data. Its intuitive interface enables seamless input, editing, and visualization. From attendance tracking to graphical reports, it offers a user-friendly solution for daily wage operations.

2023/04 – 2024/05

House price detector

Streamlit House Price Detector: Instantly predict house prices with decision tree, random forest, and linear regression models. Empowering informed real estate decisions.

Extracurricular Activities

Member of ISTE VESIT

Volunteer at local hackathons and technology workshops
